Notice to Reader

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the unaudited interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed interim consolidated financial statements have been prepared by and are the responsibility of the Corporation's management.

The Corporation's independent auditor has not performed a review of these financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of unaudited interim financial statements by an entity's auditor.

RESPONSIBILITY FOR CONDENSED INTERIM FINANCIAL STATEMENTS

The accompanying condensed interim consolidated financial statements of Big Ridge Gold Corp. are the responsibility of the Board of Directors and Management. These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and, where appropriate, include management's best estimates and judgments.

Management maintains a system of internal control designed to provide reasonable assurance that assets are safeguarded from loss or unauthorized use, and that financial information is timely and reliable. However, any system of internal control over financial reporting, no matter how well designed and implemented, has inherent limitations and may not prevent or detect all misstatements.

The Board of Directors is responsible for ensuring that management fulfills its responsibilities for financial reporting and is ultimately responsible for reviewing and approving the financial statements.

The Board of Directors carries out this responsibility principally through its Audit Committee. The Board of Directors appoints the Audit Committee, whose members are independent directors. The Audit Committee meets periodically with Management to review the financial reporting process and financial statements, together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the consolidated financial statements together with other financial information of the Shareholders. The Board of Directors approves the financial statements on recommendation from the Audit Committee.

The accompanying notes are an integral part of these condensed interim consolidated financial statements.

1. GOING CONCERN AND NATURE OF OPERATIONS

Big Ridge Gold Corp. ("the Company") is engaged in the acquisition, exploration and evaluation of Canadian gold projects. The Company's head office is located at Suite 1400, 18 King Street East, Toronto, Ontario, M5C 1C4, and the Company's registered and records office is located at Suite 1500, 1055 West Georgia Street, Vancouver, British Columbia, V6E 4N7.

The Company presently has no proven or probable reserves and has not yet determined whether its properties contain economically recoverable ore reserves. The Company has not generated any revenues from operations to date and consequently is considered to be in the exploration stage. The amounts shown as exploration and evaluation assets represent acquisition costs incurred to date, less amounts written down or written off, and do not necessarily represent present or future values. The recoverability of the carrying amounts for exploration and evaluation assets is dependent upon a number of factors, including raising equity, debt or other forms of financing on acceptable commercial terms to finance the ongoing administration of the Company and the exploration and evaluative work necessary to underpin an assessment of the viability of each of the Company's mineral projects; the successful completion of environmental assessments by federal and provincial regulatory agencies; the acquisition of the federal and provincial permits required to enable construction of mining facilities; raising equity, debt and other financing to finance construction; and attaining profitable operations. These material uncertainties lend significant doubt over the applicability of the going concern assumption and ultimately the use of accounting principles pertinent to a going concern. These consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported expenses and balance sheet classifications that would be necessary if the going concern assumption were inappropriate. These adjustments could be material.

Big Ridge funded its operations in the period ended September 30, 2023 from the use of existing cash and cash held by Gold Island Inc. at the time of the Company's acquisition of the outstanding securities of Gold Island Inc. ("Gold Island") (note 4). In addition, the Company continues to seek additional financing, both through additional offerings of equity and other, non-dilutive transactions. However, there is no assurance that the Company will be successful in these efforts.

2. BASIS OF PREPARATION

The Company's condensed interim consolidated financial statements report the Company's financial position, results of operations, cash flows, and changes in shareholders' equity during a fiscal year that ends on June 30.

Basis of presentation

These condensed interim consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Empress Resources Corp and Gold Island Inc. The financial statements of Empress and Gold Island are prepared for the same period as those of the Company using consistent accounting policies for all periods presented. All intercompany balances and transactions have been eliminated.

Statement of Compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), including International Accounting Standard ("IAS") 34 – *Interim Financial Reporting*. These condensed interim consolidated financial statements should be read in conjunction with the Company's annual consolidated financial statements for the year ended June 30, 2023, which have been prepared in accordance with IFRS. The accounting policies and methods of application

adopted are consistent with those disclosed in Note 3 of the Company's annual financial statements for the year ended June 30, 2023.

These condensed interim consolidated financial statements were approved by the Board of Directors of the Company on November 27, 2023.

The consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and discharge of all liabilities in the normal course of business. In addition, the condensed interim consolidated financial statements have been prepared on a historical cost basis, except for certain financial instruments which are measured at fair value through profit or loss, as disclosed in Note 3 of the Company's annual financial statements for the year ended June 30, 2023.

Critical Accounting Estimates and Judgments

The preparation of these consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported expenses during the year. Actual results could differ from these estimates.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the end of the reporting period, which could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

- (a) The assessment by management of the reasonableness of the going concern assumption.
- (b) The carrying value and the recoverability of exploration and evaluation assets, which are included in the consolidated statements of financial position based on the planned exploration budgets and drill results of exploration programs to assess economic recoverability and probability of future economic benefits.
- (c) The assessment by management of the recoverability of the Company's investment in Caprock.
- (d) The inputs used in accounting for warrants and share-based compensation expense included in profit or loss calculated using the Black-Scholes option pricing model.
- (e) The valuations of shares issued in non-cash transactions.
- (f) The recognition of deferred tax assets based on the change in unrecognized deductible temporary tax differences.

3. SUMMARY OF ACCOUNTING POLICIES

The accounting policies followed in these condensed interim consolidated financial statements are consistent with those disclosed in Note 3 of the Company's annual financial statements for the year ended June 30, 2023.

New Accounting Standards

There were no new accounting standards effective July 1, 2023, that were applicable to the Company.

4. ACQUISITION OF GOLD ISLAND

5. INVESTMENT IN CAPROCK MINING CORP.

On February 28, 2022, the Company closed the sale of five Ontario-based mining properties to Caprock Mining Corp ("Caprock"), pursuant to the terms of a sales agreement dated March 11, 2021 (note 8). As consideration for the sale of these properties, Caprock issued 10,000,000 common shares (the "Caprock Shares"), which were valued at an estimated fair value of \$0.10 per share or \$1,000,000.

Immediately following the sale of the Ontario properties and the issuance of the Caprock Shares referred to above, the Company held approximately 24.8% of the outstanding equity of Caprock. Taken together with the fact that two representatives of the Company's management serve on the board of Caprock, the Company has concluded that it holds significant influence over Caprock, and consequently this investment is accounted for using the equity method.

Hope Brook

On April 6, 2021, the Company entered into an earn-in agreement with First Mining Gold Corp. ("First Mining"), pursuant to which the Company may earn an interest of up to 80% in the Hope Brook Gold Project, located in Newfoundland and Labrador.

The Company incurred the following initial acquisition costs, at which point it became the operator of the Hope Brook Gold Project:

	\$
Cash	500,000
11,500,000 common shares with a fair value of \$0.19 per share	2,185,000
Transaction costs	39,131
	2,724,131

The earn-in is comprised of two stages, as described below:

• In order to exercise its first earn-in right to acquire a 51% interest in the Hope Brook Gold Project, the Company was required to incur and fund expenditures on the Hope Brook Gold Project of no less than \$10 million by June 8, 2024, and to issue an additional 15 million common shares to First Mining.

On September 13, 2022, the Company met the expenditure requirements necessary to satisfy the first earn-in threshold set out in the Hope Brook option agreement and issued a total of 15,000,000 common shares to First Mining with an aggregate fair value of \$1,950,000, completing the first earn-in related to the Hope Brook project, gaining an initial 51% interest in the project, and becoming party to a joint venture agreement for the Hope Brook Gold Project with First Mining (49% interest). Concurrently with the creation of the joint venture, the joint venture entity granted to First Mining a 1.5% net smelter returns royalty on the Hope Brook Gold Project, subject to a right of the Company to buy back 0.5% for \$2 million.

• To earn an additional 29% interest in the Hope Brook Gold Project, the Company must incur and fund an additional \$10 million in expenditures on the project by June 8, 2026. Upon achieving this final expenditure threshold and issuing an additional 10 million common shares ("Stage 2 Shares") to First Mining, subject to the approval of the TSX Venture Exchange, the Company will become the holder of an 80% interest in the Hope Brook Gold Project. The Company will solely fund all expenditures on the project up to and including the date on which the Company announces the results of a feasibility study on the project, at which time First Mining's free-carry period will terminate. If the issuance of the Stage 2 Shares would result in First Mining owning more that 19.9% of the total number of the Company's common shares issued and outstanding following such share issuance, the number of Stage 2 Shares shall be reduced such that First Mining will own no more than 19.9% of the total number of the Company's common shares issued and outstanding following the issuance of the Stage 2 Shares.

In addition, upon the commencement of commercial production at the project, the Company will pay \$2 million to First Mining.

On closing, the Company granted First Mining several rights that will continue so long as it holds at least 10% of the Company's issued and outstanding common shares, including the right to nominate one director to the Company's board, and a right to participate in financings by the Company to maintain its percentage ownership in the Company's shares. The Earn-In Agreement also includes various restrictions on the parties from transferring their respective interests in the Hope Brook Project and on First Mining's ability to resell its Big Ridge shares.
