# Forward Looking Statements

Certain statements contained in this presentation may contain forward-looking information within the meaning of Canadian securities laws. This presentation may contain forward-looking statements including, but not limited to, information regarding geological interpretations, potential timing and content of exploration programs, receipt of permits or property titles, joint venture agreements, Company financings, etc. The company does not have proven reserves or resources on its property. Such forward-looking information is identified by words such as "estimates", "intends", "expects", "believes", "may", "will" and include, without limitation, statements regarding the company's plan of business operations (including plans for progressing assets), estimates regarding mineral resources, projections regarding mineralization and projected expenditures. There can be no assurance that such statements will prove to be accurate; actual results and future events could differ materially from such statements. Factors that could cause actual results to differ materially include, among others, metal prices, risks inherent in the mining industry, financing risks, labour risks, uncertainty of mineral resource estimates, equipment and supply risks, title disputes, regulatory risks and environmental concerns. Most of these factors are outside the control of the company. Investors are cautioned not to put undue reliance on forward-looking information. Except as otherwise required by applicable securities statutes or regulation, the company expressly disclaims any intent or obligation to update publicly forward-looking information, whether as a result of new information, future events or otherwise. Big Ridge Gold Corp. relies upon litigation protection for forward-looking statements.

# Hope Brook Gold Project – Regional Prospects

## Phillips Brook

- Tested by 8 diamond drill holes over a 2.2km strike length. Last drilled in 1996 by Royal Oak.

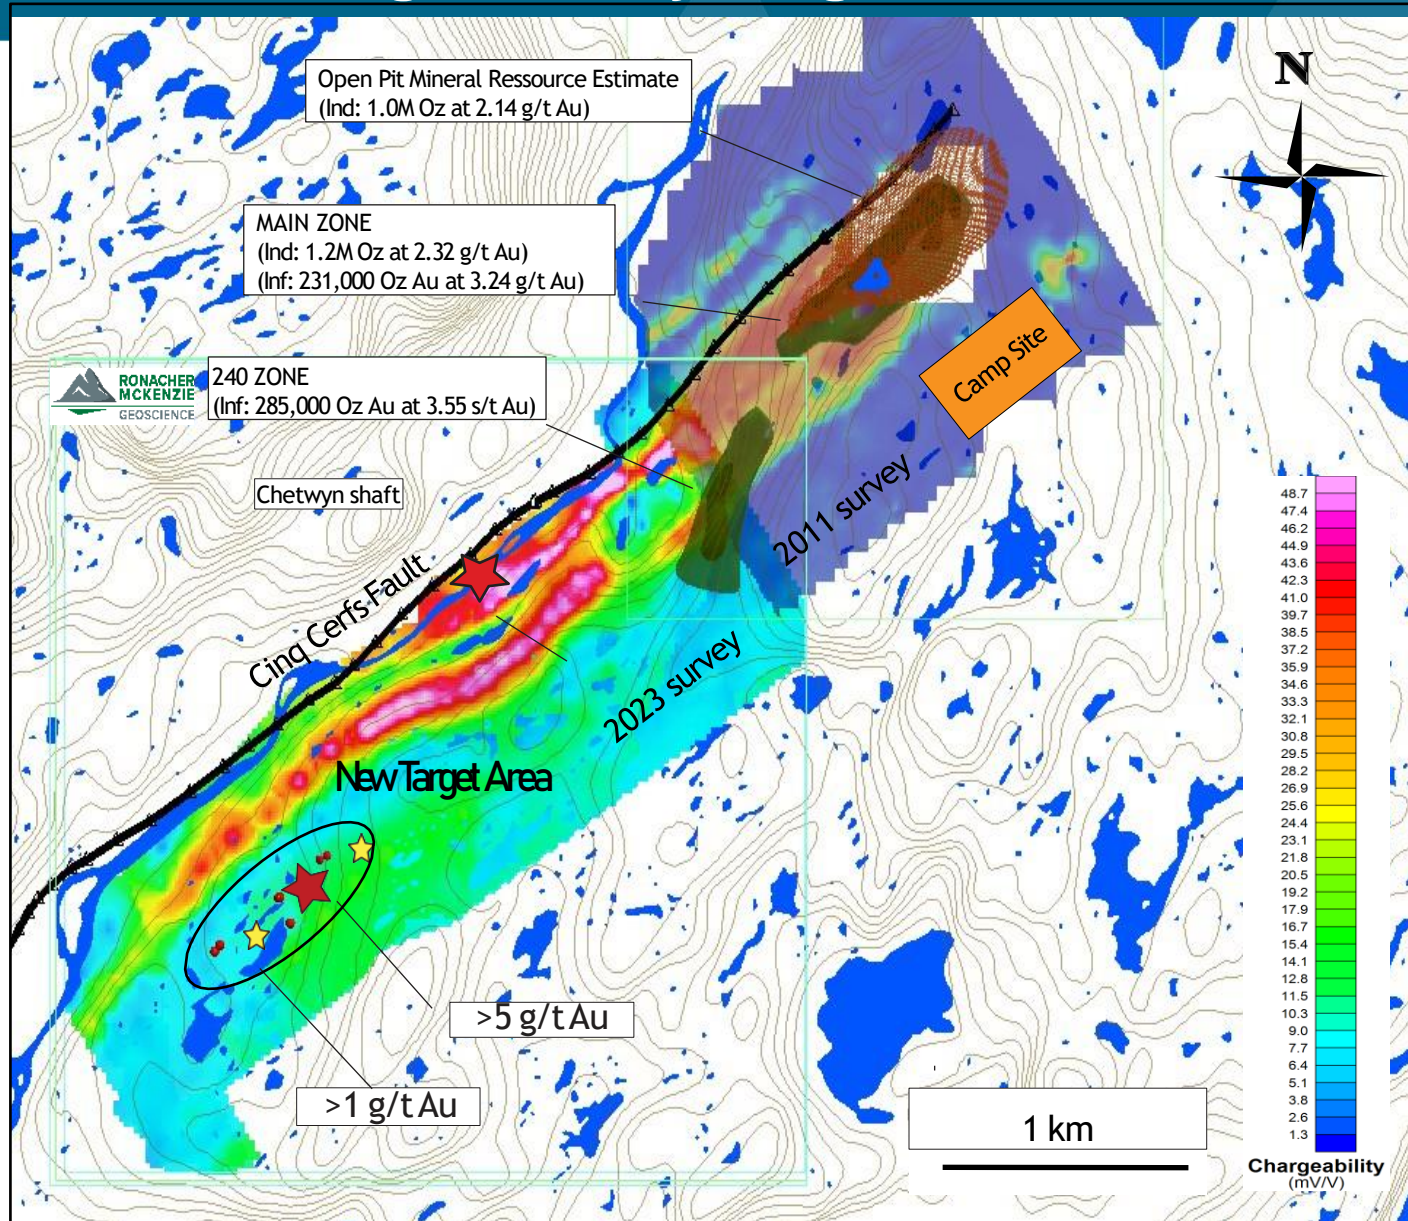

## Cross Gulch

- Tested by 10 diamond drill holes that defined two sub-parallel gold bearing zones across 225 meters of strike and to 100 meters of depth.

## Old Mans Pond

- Trenching returned 168 g/t Au over 0.80 meters.

# 2023 IP Results – New High Priority Targets Identified

- Strong chargeability strikes for greater than 3km southwest of the 240 Zone.
- Anchored by high grading surface samples
- Compelling evidence that this is a high priority target.

## 2024 Program

- Finalize drill program on newly defined extensions to Main & 240 Zones.
- Resample drill core from 2012 drill program at Chetwynd.
- Continue Hope Brook ore sorting study.
- Complete Hope Brook environmental baseline studies.
- Advance Hope Brook toward Preliminary Economic Assessment.
- Prepare Hope Brook Project Registration.
- Hope Brook Licences in good standing for 3-5 years.
