Forward Looking Statements

Certain statements contained in this presentation may contain forward-looking information within the meaning of Canadian securities laws. This presentation may contain forward-looking statements including, but not limited to, information regarding geological interpretations, potential timing and content of exploration programs, receipt of permits or property titles, joint venture agreements, Company financings, etc. The company does not have proven reserves or resources on its property. Such forward-looking information is identified by words such as "estimates", "intends", "expects", "believes", "may", "will" and include, without limitation, statements regarding the company's plan of business operations (including plans for progressing assets), estimates regarding mineral resources, projections regarding mineralization and projected expenditures. There can be no assurance that such statements will prove to be accurate; actual results and future events could differ materially from such statements. Factors that could cause actual results to differ materially include, among others, metal prices, risks inherent in the mining industry, financing risks, labour risks, uncertainty of mineral resource estimates, equipment and supply risks, title disputes, regulatory risks and environmental concerns. Most of these factors are outside the control of the company. Investors are cautioned not to put undue reliance on forward-looking information. Except as otherwise required by applicable securities statutes or regulation, the company expressly disclaims any intent or obligation to update publicly forward-looking information, whether as a result of new information, future events or otherwise. Big Ridge Gold Corp. relies upon litigation protection for forward-looking statements.

Paul Robinson, P.Geo., is the Qualified Person (QP) under NI 43-101 for the projects discussed in this presentation.

BIG RIDGE
GOLD CORP

Big Ridge Gold Corp.

100% Ownership of One of the Highest-Grade Open Pit Gold Resources in Canada
- +1MM oz. Au grading 2.14 g/t and 47M pounds Cu (Open for Expansion)

Management Team with a Proven Track Record
- In Province permitting experience (Pine Cove, Valentine Lake, Maritime Resources)

Upcoming Preliminary Economic Assessment
- 2026 Preliminary Economic Assessment (Re-rating Opportunity)

Potential Low Cost Tailings Project
- Historic Resource of 134,500 oz. Au grading 0.86 g/t Au in tailings pond

Supportive Shareholder Base
- Michael Gentile, PowerOne Group, Sprott, Several Institutions and HNW Individuals

Board of Directors

Mike Bandrowski, President & CEO, Director

- Over 15 years capital markets and exploration experience in both domestic and international markets.
- Research analyst covering both base and precious metals
- Most recently Director, Mining Investment Banking at a Canadian Bank.

Kristina Bates, Chair, Director

- Finance executive, director and volunteer with over 20 years of investment, strategic and governance expertise with mining, technology and high growth companies.
- Kristina has spent the majority of her career in capital markets, raising equity and debt financing for early and mid stage companies.
- Kristina is a CPA, CA, has an MBA and started her career in finance with Ernst & Young LLP.

Nick Tintor, Director

- Geologist and mining executive with over 35 years of experience in mineral exploration, evaluation and company management.
- A Qualified Professional Member of the Mining and Metallurgical Society of America, Nick is a Qualified Person as defined under NI 43-101.

Rick Mazur, Director

- Geoscientist that has been involved with the international mining and exploration industry for over 35 years.
- Current director at Forum Energy Metals Corp., Impact Silver Corp. and Midnight Sun Mining Corp.
- Rick is the qualified person (QP) under 43-101.

Paul Pint, Director

- Mr. Pint has worked in various senior roles in the investment banking and equity sales industry, holding several senior positions with large Canadian banks as well as boutique investment banks and dealers.
- In 2016, Mr. Pint co-founded and was President of Troilus Gold Corp., he is currently the CEO and Director of ReliefAI Inc.
- Mr. Pint holds a Bachelor of Commerce Degree from the University of Toronto and is a Member of the Chartered Professional Accountants of Ontario.

Garett Macdonald, Director

- Mr. Macdonald has over 30 years of industry experience and is currently the Vice President of Operations and General Manager of Hemlo Mining Corporation.
- He previously served as President and CEO of Maritime Resources in Newfoundland and Labrador, bringing the Hammerdown gold project from concept to first gold production and ultimately the sale of the company to New Found Gold.
- Macdonald holds a Master of Business Administration degree from Western University's Ivey Business School and a Bachelor of Engineering (Mining) from Laurentian University in Sudbury, Ontario

Management & Advisors

Mike Bandrowski, President & CEO, Director

- Over 15 years capital markets and exploration experience in both domestic and international markets. Mike was a Mining Research Analyst covering both base and precious metals, and was most recently Director, Mining Investment Banking at a Canadian Bank.

Jim Kirke, CFO

- Over 35 years public accounting experience and was most recently CFO at Marathon Gold Corp. and Marathon PGM from 2005 – 2019. Jim was involved in raising over $150 million in capital, NSR buybacks & sales and acquisition.

James Powell, COO

- James holds a Bachelor of Engineering (Civil) from the University of New Brunswick and a Master of Engineering (Mining) from McGill University. He is a professional engineer with over 25 years of technical and project management experience in mining, civil, geotechnical and environmental disciplines. James has over 18 years of increasing responsibility in senior leadership, in both consulting and mining team roles, with significant project permitting, engineering and overall development experience primarily in gold and copper on the Island of Newfoundland, and iron ore in Labrador. He most recently held the role of Vice President, Regulatory and Government Affairs for the Valentine Gold Mine where he led the environmental and social components and provided strategic support to engineering and overall management, from advanced exploration through the development of the project.

Dr. Paul Robinson, V.P. Exploration

- Dr. Paul D. Robinson has over 30 years of professional experience in mineral exploration and spatial technology industries having worked in Chile, Argentina, USA and Canada. After completing a joint honors Geology and Geography degree from Keele University, United Kingdom in 1990, Dr. Robinson went on to obtain M.Sc. In "Computing for Earth Scientists" from the same university and then a Ph.D. on the Stratigraphy of Coastal Ecuador, which was completed in 1994, from the University of Southampton. Dr. Robinson is a professional geoscientist registered in Ontario and Newfoundland.

Dr. Lawrence Curtis, Advisor

- Dr. Curtis is an economic geologist with over 45 years of experience in exploration, mine development, and financing of precious metals resources. He holds a PhD from the University of Toronto and is a licensed professional geologist (Ontario) and a lifetime member of the PDAC.

Dr. Bill Pearson, Advisor

- Dr. Pearson is a Professional Geoscientist with over 46 years of experience in the national and international mining industry in all phases from grassroots exploration through to advanced projects and mine development. He has carried out exploration and development programs in 18 countries in North and South America, Europe, East Asia and Australia and has been on the Board of several public junior mining companies. From 2010 to 2015 he was the President & CEO of Coastal Gold Corp. who explored the Hope Brook project and negotiated the sale of the company to First Mining Finance.

Hope Brook Cu-Au Project

Hope Brook Cu-Au Project

- Past producer of **752,163 oz**. Au from 1987 – 1997.
- Derisked with respect to metallurgical recoveries (84% Au).
- **1.44M oz Au, 47M lb Cu** and growing.
- **One of Canada's Highest Grade Open Pit Gold Resources**
- **100% ownership**
- **Tier 1 Jurisdiction**

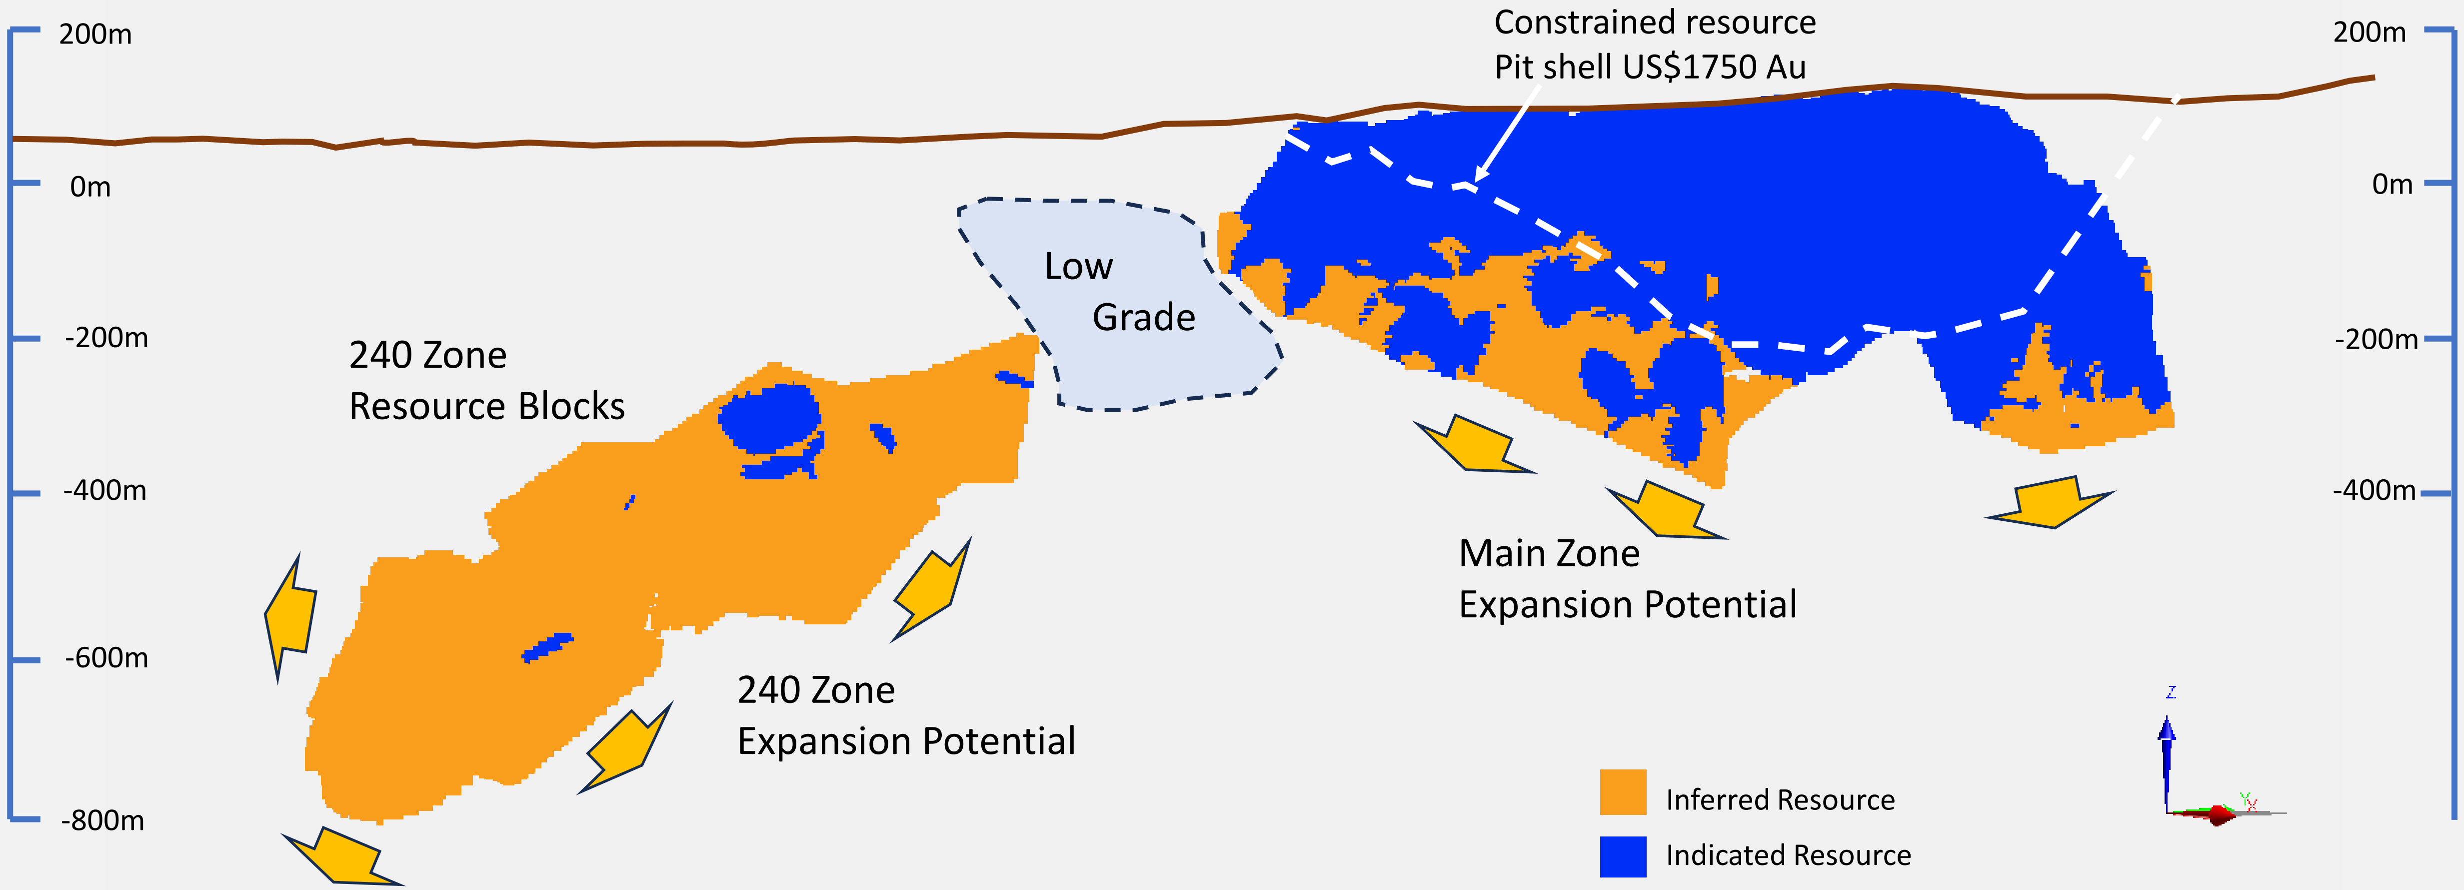
- 43-101 Compliant Resource Estimate, Effective Date January 17, 2023.
- Includes only Main Zone and 240 Zone.
- 1.44m oz grading 2.43 g/t Au
- Long-term gold price of US$1,750/oz.
- 43% Increase in total Indicated Ounces and 110% Increase in total Inferred Ounces compared to the April 2021 Mineral Resource Estimate
- Current Mineral Resource Estimate also includes 47 Million Pounds of Copper.

BIG RIDGE GOLD CORP

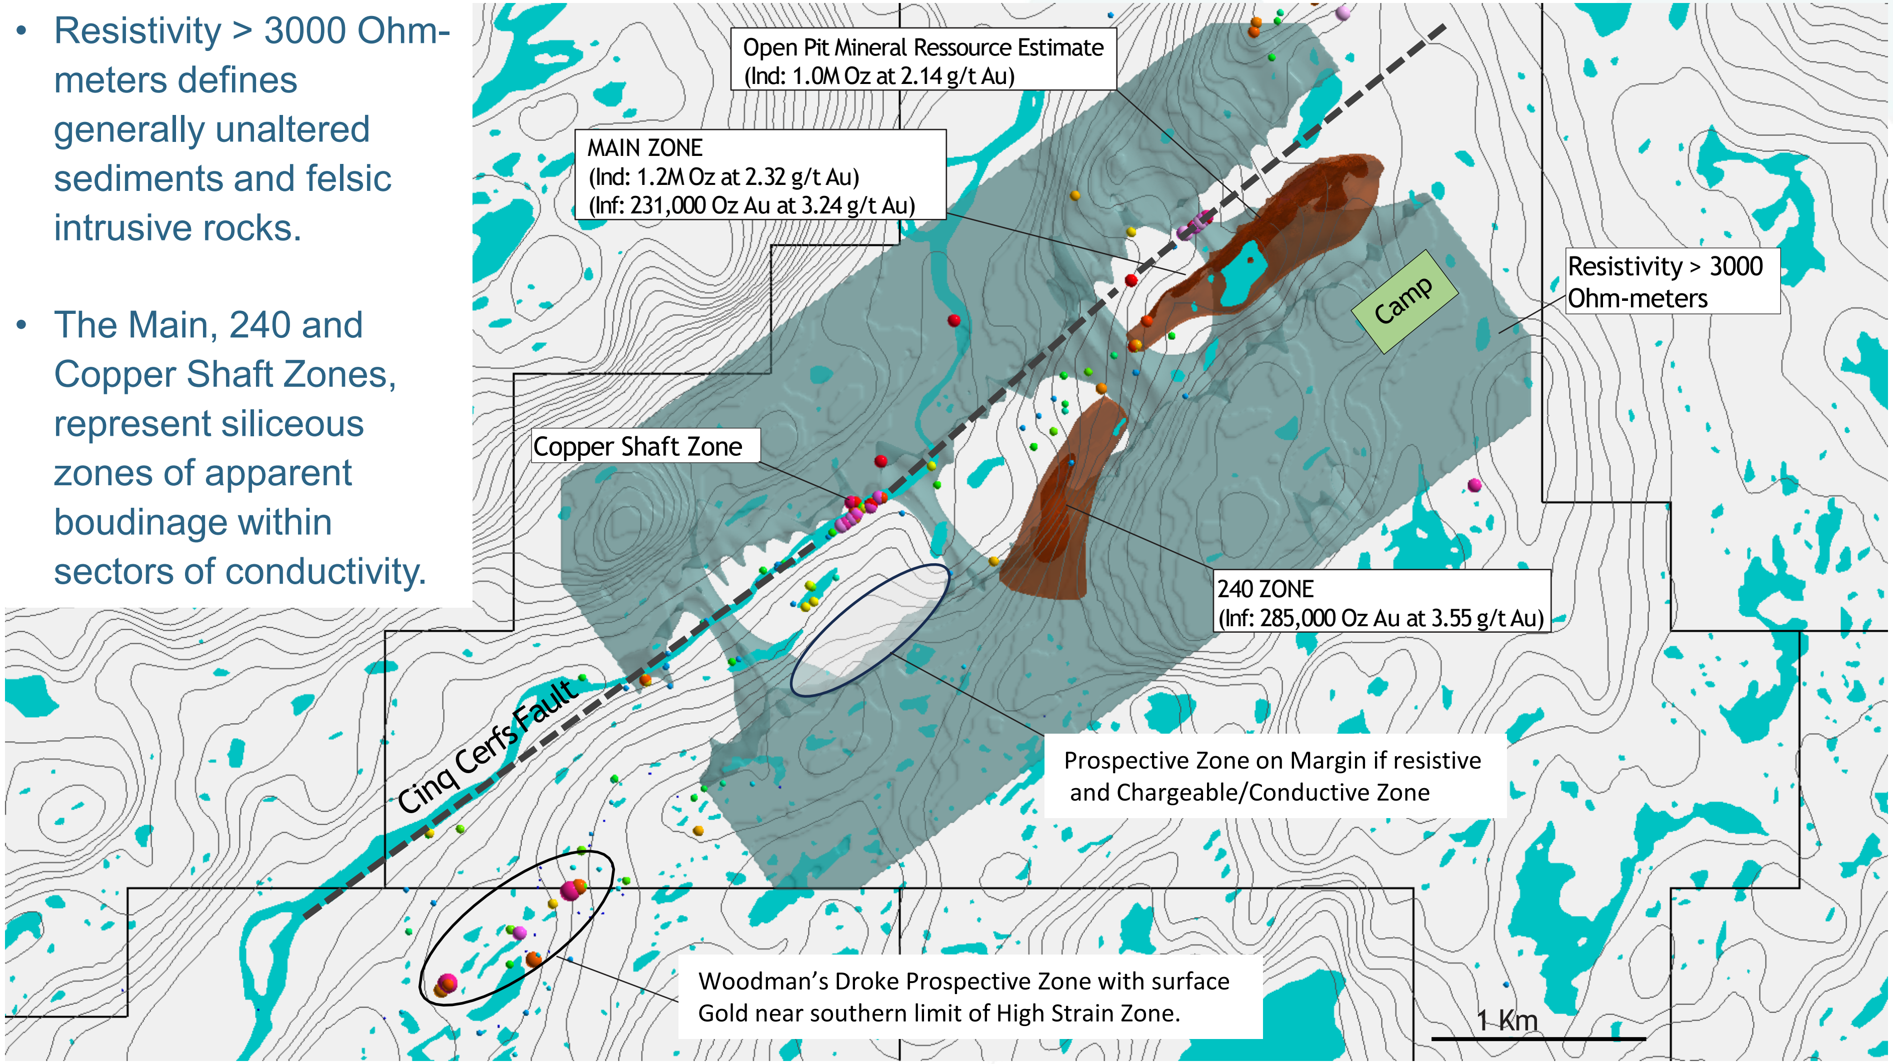
Hope Brook Mineral Resource Expansion Potential Au g/t Resource



Long Section View of 240 Zone and Main Zone Resources

2026 IP Results – Resistivity > 3000 Ohm-meters, Reveals High-Priority Targets, Identified in Conductive Zones

- Resistivity > 3000 Ohm-meters defines generally unaltered sediments and felsic intrusive rocks.
- The Main, 240 and Copper Shaft Zones, represent siliceous zones of apparent boudinage within sectors of conductivity.



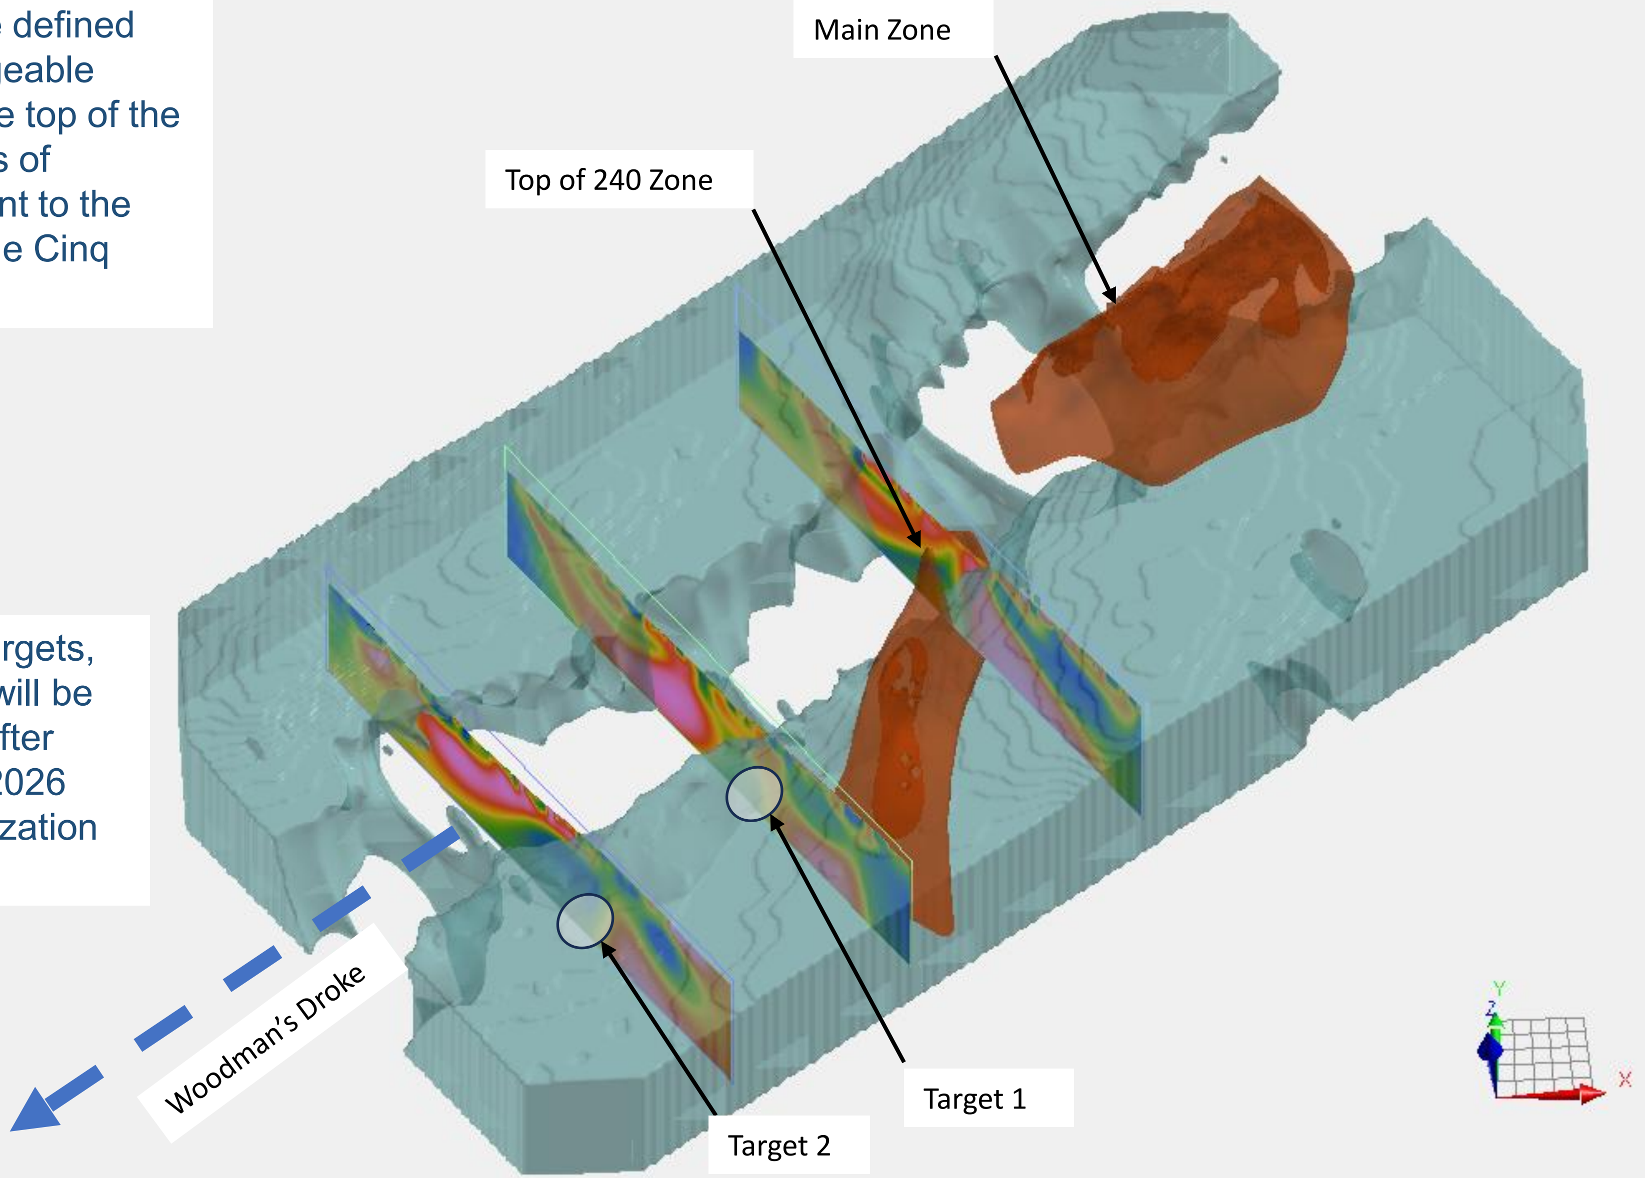
- Resistive north-west striking bridges, likely represent pressure shadows between silicic boudins, which are remnants of a much larger strata bound, high sulfidation system.
- The evidence suggests potential for discovery of further mineralization, in the form of further mineralized boudins along the Cinq Cerfs Fault and High Strain Zone.

BIG RIDGE GOLD CORP

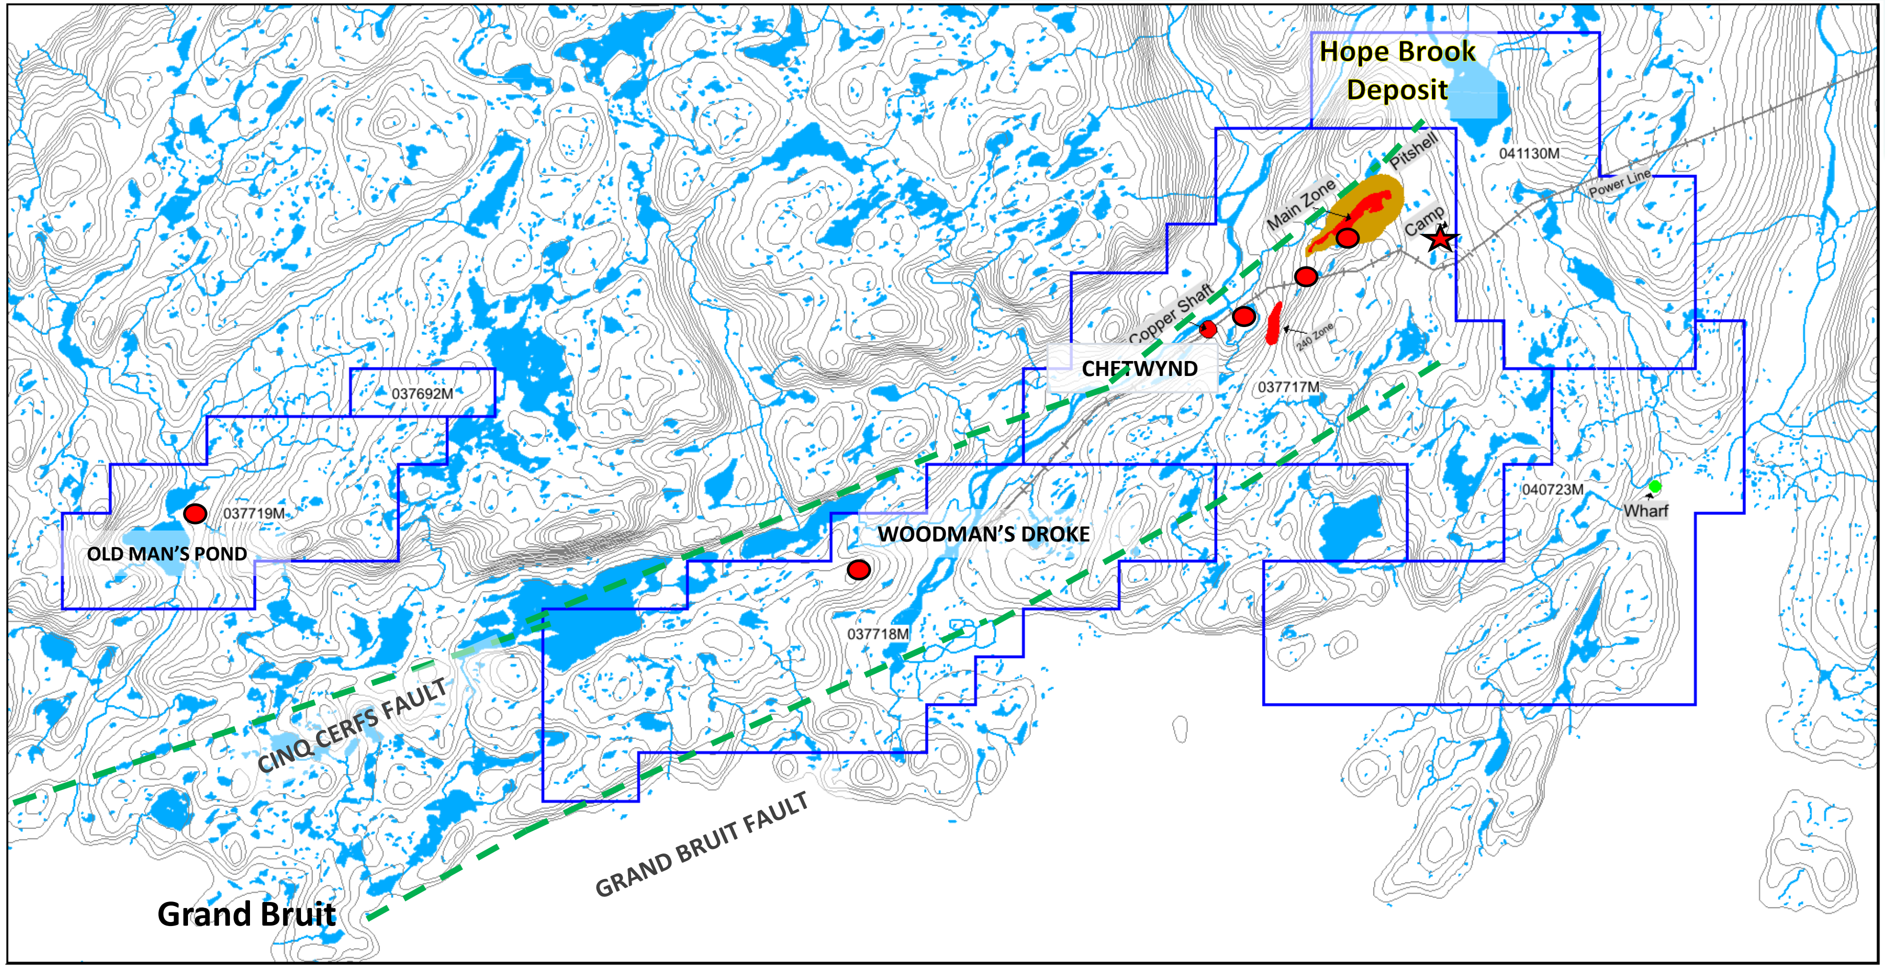
2026 IP Results – Target Zones Relative to Chargeable Sections

Targets 1 and 2 are defined not as strictly chargeable zones, but using the top of the 240 Zone, as zones of conductivity adjacent to the southern edge of the Cinq Cerfs Shear Zone.

Further potential targets, with surface gold, will be further evaluated after completion of the 2026 Fall Induced Polarization Campaign.



Hope Brook Gold Project – Land Tenure and Prospects



Chetwynd

- Historic drilling including an intercept of 8.2 m at 1.45 g/t Au in hole CW-001.
- and 6 m at 1.0 g/t Au in Hole CW-003

Old Mans Pond

- Historic trenching returned 168 g/t Au over 0.80 meters.

Hope Brook – High Quality Cu-Au Concentrates in High Demand

- Hope Brook produced a high quality Cu-Au concentrate from 1992-1997 grading 22% Cu and 34 g/t Au.
- More recent metallurgical studies have produced Cu-Au concentrate ranging from 20-30% Cu and 270-539 g/t Au.
- Currently generating representative concentrate samples for potential off-takers and traders.
- Smelters and metals traders a source for project financing at attractive rates
- Hope Brook Gold Project is located on tidewater

BIG RIDGE GOLD CORP

2026/2027 Program

- Hope Brook environmental baseline studies (ongoing).
- Metallurgical Test Work (ongoing).
- HBGP Preliminary Economic Assessment (Ongoing).
- Phase I Geotechnical and hydrogeological drilling (completed July 2026).
- Diamond drill program at Main & 240 Zones (started August 2026).
- Ongoing stakeholder engagement.
- Formally Initiate Environmental Assessment

BIG RIDGE GOLD CORP

Potential Opportunity for Early Cash Flow

- Low Capex Tailings Opportunity
- MRE Delineated by Coastal Gold, January 2014 (historic)
- +CAD$800MM is-situ Metal Value
- 2014 Gold Recoveries of 67% (Leach)
- Big Ridge Recently Shipped 150kg for Additional Metallurgical Testing
- Opportunity to Fund Large Portion of HBGP Capex

Hope Brook Gold Project (Tailings) Mineral Resource Estimate as at January 15, 2014* **(historic)**
